Exhibition Dates: 15 January - February 2022

Opening Date: Sat 15 January, 11-7pm

Yeo Workshop is pleased to present the third solo presentation of Fyerool Darma, I♠nd\$¢♠p≡\$, with a series of new works.

Fyerool perceives found images and texts, from digital and other archival sources as collaborators. Drawing equally upon illusion and allusion, he weaves, interlaces, embroiders and paints these varied materials together.

The presentation, including the walls of the gallery itself, is an exercise in composing oneself and decomposing images to recompose a visual pantun or culturally-modular quatrain in a context of hypervisuality and climate change. The exercises have been developed in experimental antilinear conversation with Karin Oen.

Biography

FYEROOL DARMA (b. 1987) continues to live and work in Singapore. His object and material experimentations are based on an extensive visual vocabulary drawn from popular culture, literature, the archives, the Internet, and his own life.

For more information about his previous works, refer to his previous solo exhibitions here:
